Dr. the Honourable D. Orlando Smith
Premier and Minister of Finance
Ministry of Finance
Road Town, Tortola
Virgin Islands

15th January 2018

Sir,

I forward herewith, my Report on the Accounts of the Government of the Virgin Islands for the year ended 31 December 2012, in accordance with the provisions of Section 109(3) of the Virgin Islands (Constitution) Order 2007.

Sincerely,

Amoret Davies
Ag. Auditor General

**GOVERNMENT OF THE VIRGIN ISLANDS
STATEMENT OF ASSETS AND LIABILITIES
AND ABSTRACT STATEMENT - 2012**

AUDIT CERTIFICATE

I have examined the Statement of Assets and Liabilities of the Government of the Virgin Islands as at 31 December 2012 and the Annual Abstract Statement for the year then ended, together with the relevant subsidiary Statements, in accordance with the provisions of Section 109(2) of the Virgin Islands (Constitution) Order 2007 and Section 11 of the Audit Act 2003.

My examination was conducted in accordance with generally accepted auditing standards, that relate to public accounts and included tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

Except as otherwise stated in my Report on the audit of the Statements of Account for the year ended 31 December 2012, and subject to the comments, exceptions and reservations contained therein, in my opinion the Statements of Account present fairly the financial operations of the Government of the Virgin Islands for the year then ended.

Amoret Davies
Acting Auditor General

AUDIT MANDATE

1. The audit of the accounts of the Government of the Virgin Islands for the year ended 31 December 2012 was carried out in accordance with the provisions of Section 109 of the Virgin Islands (Constitution) Order 2007 and the Audit Act 2003, hereinafter referred to as the Act. The Act prescribes, inter alia, for the appointment, tenure of office, powers and duties of the Auditor General, for the submission of annual statements by the Accountant General, and for examination and audit of those statements.

2. The Statutory duties of the Auditor General, as contained in sections 11(1) and 14 of the Act, are as follows:

11. (1) The Auditor General, acting in accordance with section 109 of the Constitution, shall undertake an audit of the accounts of the House of Assembly and all Government departments and offices, including the Public Service Commission, for each financial year.

14. In performing his duties under this Act, the Auditor General shall, in particular, satisfy himself

- a. that funds have been used for purposes approved by law and for no other purposes;
- b. that each payment and receipt was made or received in accordance with the law;
- c. that adequate instructions have been given to ensure
 - (i) that money is collected, paid and accounted for in accordance with the law, and
 - (ii) that property is received, held, issued, sold, transferred, destroyed, and accounted for in accordance with the law,and that those instructions are being complied with; and
- d. that adequate records are being kept
 - (i) of the collection and payment of money; and
 - (ii) of the receipt, custody, issue, sale, transfer or destruction of property.

SUBMISSION AND TRANSMISSION OF ACCOUNTS

3. The complete accounts and related schedules for 2012 were received for audit on 12 January 2017. The final revised copies were received on 21st August 2017. They comprised a Statement of Recurrent Expenditure, Statement of Development Expenditure, Statement of Recurrent Revenue, Statement of Development Revenue, Statement of Current Accounts, Statement of Advances, Statement of Public Debt, Statement of Funds, Statement of Deposits, Statement of Operations and Statement of Assets and Liabilities.

4. Section 11 of the Act prescribes, that the Auditor General shall cause the accounts to be examined and audited and shall, prepare and transmit to the Minister a report upon his examination and audit of all accounts relating to public moneys, stamps, securities, stores and other Government property, together with a copy of the Statement of Assets and Liabilities and the Annual Abstract Statement duly certified by him.

FINANCIAL REGULATIONS

5. The necessary directions and instructions for the management of the financial and accounting activities of the government as stipulated in Section 14 (c) of the Act are provided by The Public Finance Management Regulations 2005 and any amendments thereto. These are supplemented by policy directives and circulars issued throughout the year by the Ministry of Finance.

SIGNIFICANT ACCOUNTING POLICIES

6. The accounting policies of the Government of the Virgin Islands are based on concepts embodied in the Audit Act 2003 and Public Finance Management Act 2004 and are applied on a basis consistent with government accounting procedures.

Cash Basis of Accounting

7. The financial statements and supporting schedules are prepared on the cash basis of accounting. Revenue is recorded when received in cash and expenses are recorded in the period payments are made.

Currency

8. Amounts in respect of currency in this Report are expressed in United States dollars, except where stated otherwise. Foreign currency amounts are valued at the year end exchange rates applied by the Government which are provided by the Ministry of Finance. Discrepancies of \$1 may appear in the Report because of the rounding of figures.

STATEMENT OF ASSETS AND LIABILITIES

Assets and Liabilities

9. Assets are made up of the Government's cash holdings and amounts receivable. Fixed assets owned by the Government such as land, roads, buildings, vehicles and equipment are not included in the Statement of Assets and Liabilities. Liabilities comprise Government's financial obligations to other governments and agencies.

10. The Statement submitted by the Accountant General is shown above. The public debt is not included in the Statement of Assets and Liabilities. Comments on the public debt are on page 31 of this report.

CONSOLIDATED FUND

11. The Consolidated Fund supports the operating activity of the Government. Revenue received from various sources is paid into this fund and expenditure for recurrent activity drawn from there.

12. During the year the Consolidated Fund received revenue of \$299,771,337 and incurred expenditure of \$273,606,044. In addition, transfers of \$14,161,100, \$1,000,000 and \$15,000,000 were made to the Development, Pension and Reserve funds respectively. The net result at year's end was a deficit of \$3,995,807. Further adjustments were made to the fund balances that reduced the Consolidated Fund balance at year end. A summary of the Consolidated Fund's activity for 2012 is shown below.

Fund Adjustments

13. In 2015, the Ministry of Finance engaged PWC as consultants to (among other things) conduct an assessment of the Treasury's operations with a focus on key internal controls and financial reporting procedures and make relevant recommendations. The Consultants recommended that the reported balances for the Consolidated Fund, Development Fund and other funds be adjusted to their supporting bank balances.

14. The adjustment of \$56,085,187 above represents the implementation of this recommendation for the Consolidated Fund. This amount also includes write-offs of several dormant advances and deposits accounts that had been carried forward in the statements for several years.

15. Fluctuations of the Consolidated Fund’s balance over the past ten years are reflected below.

Year	Surplus/ (Deficit) \$	Consolidated Fund Balance \$

RECURRENT REVENUE

16. The revenue records were examined to assess completeness and accuracy of reported collections. All of the Government's major revenue collection offices and several of the smaller ones now use the electronic online receipting system that is linked to the Treasury Department. This system allows the Accountant General to keep abreast of the revenue collection and reporting activity throughout the service. Despite this there are still a few departments that are tardy in reporting revenue to the Treasury. In addition, our review indicated instances where processing/posting was delayed at the Treasury after departments reported revenue.

17. On-site inspection of revenue collecting offices revealed cases where internal controls were insufficient to safeguard the collection process. This opened the door to irregularities in collection activity.

18. Recurrent revenue for 2012 was budgeted at \$289,545,000. Actual collections totalled \$299,771,337, which exceeded the budgeted amount by \$10,226,337 more than 3.52%. Six of the revenue heads met the budgeted allotment in 2012. The excess revenue generated of \$14,215,981 was sufficient to offset the combined shortfall of \$3,989,644. The revenue amounts are shown in the schedule below.

Revenue Sources	Budget 2012	Actual 2012	Excess 2012	(Shortfall) 2012	Actual 2011

19. The diagrams below show the apportionment of revenue collected in 2012 and 2011 by Financial Services, Inland Revenue, Customs and a combination of the remaining departments.

Diagram No.2

Diagram No.3

20. Revenue collections increased across the service in 2012. This resulted in the 2012 collections exceeding the 2011 amounts by \$12,291,811 (or 4.26%).

21. The Financial Services Commission collects revenue on behalf of the Government which is paid into a joint trust account and transferred to the Government's Consolidated Fund quarterly. During 2012 an amount of \$186,299,675 was transferred into the Consolidated Fund from the said trust account. This represented 62.15% of the Government's overall intake.

22. The collection trends of the three major revenue sources (Financial Services, Inland Revenue and Customs) from 2003 to 2012 are illustrated in the chart below.

Diagram No. 4

23. The revenue comparison table below shows collections for 2012 and 2011 and demonstrates a slight improvement in collections when compared to the previous year.

ARREARS OF REVENUE

24. Public Finance Management Regulations, 2005 No. 43 reads, in part, as follows:

- (1) An Accounting Officer who is responsible for the collection of revenue shall submit to the Accountant General
 - (a) an annual return of arrears of revenue; and
 - (b) a monthly report of arrears of revenue recovered.
- (2) A return and report shall
 - (a) be in the approved form;
 - (b) reach the Accountant General not later than one month after the end of the relevant period; and
 - (c) be submitted whether or not any arrears have accrued or any recovery has been made, as the case may be.

25. This requirement is widely disregarded in the Public Service.

RECURRENT EXPENDITURE AND FUNDS CONTRIBUTIONS BUDGET

26. The 2012 budget provided \$259,383,900 for recurrent expenditure and \$30,161,100 for funds contributions. These provisions were increased by a supplementary appropriation warrant totalling \$26,958,400 which brought the authorised amount to \$316,503,400 as shown below.

Authority For Expenditure	Approved Transfers from the Consolidated Fund			Total
	Recurrent	Development	Other	
	\$	\$	\$	\$
Appropriation Act 2012	259,383,900	14,161,100	16,000,000	289,545,000

Total provision	<u>280,168,000</u>	<u>20,335,400</u>	<u>16,000,000</u>	<u>316,503,400</u>

Amount may vary slightly in the Treasury Statements of Accounts due to rounding discrepancies.

27. The provisions above are only from the Consolidated Fund and do not include funding from other sources such as loans and grants. Full transfers were made to all the Funds.

Reallocation (Virements)

28. Reallocation warrants allow departments and ministries to transfer funds from a subhead with savings to another which has insufficient funds in order to allow the latter to meet authorised expenditure. The rules and restrictions governing the application and approval of reallocation warrants are outlined each year in the annual Budget Estimates.

29. Two hundred and twenty four (224) reallocation warrants were approved for transfer of \$4,881,105.21 in 2012. The Departments/Ministries with reallocations in excess of \$100,000 are shown in the schedule that follows.

MINISTRY /DEPARTMENT/HEAD	\$
Supreme Court	103,009
Public Debt	117,500
Education (Other Secondary Schools)	118,659
Ministry of Communications and Works	120,823

Education (Administration)	220,059
Treasury Department	290,700
Premier's Office	309,564
Ministry of Finance Miscellaneous	879,700

30. In addition, funds totalling \$12,897,800 were reallocated via the Supplementary Appropriation process.

31. Section 24(2) of the Public Finance Management Act, 2004 requires the Minister to table reallocation warrants before the House of Assembly within six months after the end of the year to which they relate. There is no evidence that this was done in respect of the 2012 reallocations.

RECURRENT EXPENDITURE APPLICATION

32. The Government spent a total of \$273,606,042 on recurrent expenses and transferred \$30,161,100 to other Government funds in 2012. The audit of recurrent expenditure was performed through examination of the Treasury's computerised accounting system, departmental expenditure records, payment vouchers, invoices, contracts and statements.

33. Approximately 37.30% of the expenditure from the Consolidated Fund was applied to personal emoluments and staff related costs. This amount includes the payment of pensions and gratuities. General Operating costs, which comprise expenditure for the day to day functioning of the government service such as public utilities, rent, stationery and other related expenditures accounted for 31.41%. Principal and interest payments on public debt accounted for 5.64% of the total expenditure and contributions to Statutory Boards 15.72%.

Grant to Statutory Boards

35. Contributions to Statutory Boards accounted for 15.72% of Government's disbursements. Contributions to these entities were as indicated in the schedule that follows. The decrease in grants resulted from HL Stoutt Community College and the Beautification Committee not receiving the budgeted allotment along with a reduction in amount to the BVI Tourist Board.

Grants to Statutory Boards 2012

Diagram No. 6

36. Each agency (with the exception of the Beautification Committee which is not a statutory entity) is required to produce financial statements for auditing which are tabled before the House of Assembly. The status of these accounts is as indicated in the schedule on page 31 of this report.

Excess Expenditure

37. In accordance with the provisions of Section 12(c) of the Public Finance Management Act, a supplementary estimate must be laid before the House of Assembly in respect of any excesses of the amounts appropriated for a particular purpose. Many of the departments incurred excess expenditure on individual subheads but stayed within their overall budgeted amount. The departments listed below exceeded their approved allocation for 2012.

Department/Head	Approved Budget \$	Actual Expenditure \$	Excess Expenditure \$
Department of Waste Management	4,642,000	4,642,363	(363)
Social Development Department	4,364,200	4,393,424	(29,224)

Under Expenditure

38. Several departments/ministries recorded significant under-expenditure in their budgets. These unused amounts are returned to the Consolidated Fund at year end and if the department wishes to pursue the project/expenditure, in a subsequent year the amounts will have to be re-budgeted.

39. A summary of recurrent expenditure by head is provided in Appendix A and a comparative schedule of expenditure for the years 2011 and 2012 in Appendix B. A summary of the supplementary appropriations is shown in Appendix C.

Carried Forward Expenditure (Regulation 83)

40. Public Finance Management Regulations prohibits payment of expenditure incurred in one financial year to be made in a subsequent year. Regulation 83 specifically provides that:

83. (1) An Accounting Officer shall ensure that a payment in respect of a charge incurred during a financial year is made during that financial year.

(2) Subject to regulation 15 and except with the approval of the Financial Secretary, a payment in respect of a charge incurred during a financial year shall not be made in a subsequent period.

41. Regulation 83(2) allows for the Financial Secretary to exceptionally authorise the carrying forward of payment. This facility is used to accommodate utility expenditures and similar charges where December bills are received in the subsequent year and commitments on contracts and services which flow from one year to the other.

42. The practice has however developed whereby departments and ministries hold over invoices and receipts until the subsequent year because they have exhausted their expenditure budgets. For some departments this may run into hundreds of thousands of dollars. The Ministry of Finance routinely facilitates payment of these wrongfully held over charges and in so doing has embedded a practice of poor financial management which circumvents legislated procedures.

43. For the year 2012 the departments/ministries listed below carried forward unpaid expenditure in excess of \$10,000.00.

44. Of the \$8,005,077.30 carried forward to 2012, \$2,568,843.34 was for electricity charges with \$1,012,788.62 owed for Street Lighting (MCW). Notably, the Water and

Sewerage Department's submissions accounted for 52.19% of the carried forward amount. This amount consisted primarily of electricity bills for the desalination plant and the purchase of water.

45. The BVI International Finance Center carried forward bills totalling \$542,523.83 into 2012. This included advertising costs of \$493,129.14 which would be applied to the 2012 budgeted amount for that subhead of \$749,300, thereby immediately reducing that year's allotment by 66%.

46. The significance of these amounts require more than cursory approval under a regulation that was not intended for this purpose. These should be addressed through the supplementary approval process which requires that the amounts are reviewed and approved by the House of Assembly thereby adjusting the budget for the year under review.

DEVELOPMENT FUND BALANCE

47. Capital projects undertaken by the Government are funded through its Development Fund. The Development Fund was established in accordance with Section 7 of the Public Finance Management Act 2004 for the purpose of providing the necessary capital for the economic and social development of the Territory. The Fund consists of:

- (a) money appropriated to the Fund by a supply vote; and
- (b) any money received by the Government by way of a grant or loan
 - (i) for a specific development scheme, project or programme; or
 - (ii) generally for the purpose of development.

48. Accounts relating to the Development Fund are embodied in the Statement of Development Revenue, Statement of Development Expenditure and Abstract Statement. The balance is disclosed on the Statement of Assets and Liabilities and the Schedule of Funds that are submitted for audit by the Accountant General.

49. At the beginning of 2012 the Development Fund carried a deficit balance of \$56,050,118. An adjustment of \$107,293,912 was made to the Fund in accordance with recommendations made by consultants to the Ministry of Finance (see paragraph 13 of this report) which brought the Fund balance to \$30,072,960. The activity on the Development Fund for 2012 is summarized in the table that follows.

DEVELOPMENT FUND REVENUE

51. Revenue to the Development Fund is made up primarily of transfers from the Consolidated Fund. Other sources for funding are loans from commercial banks/lending agencies, grants and transfers from the Transportation Network Improvement Fund.

52. The 2012 initial budget for the Development Fund provided for transfers of \$28,361,100 from the Consolidated Fund and other Contributions. Supplementary provisions passed authorised further transfers of \$6,174,300. This brought the total provision to \$34,535,400.

53. The Development Fund resources were authorised as follows:

	Appropriation Act	SAP	Total Provision
	\$	\$	\$
Deputy Governor's Office	3,462,200	-	3,462,200
Premier's Office	1,540,200	248,200	1,788,400

Total	28,361,100	6,174,300	34,535,400

* Supplementary provisions funded by savings do not affect the total SAP amounts as these do not require injection of additional funds.

54. The actual amount received by the Development Fund was \$19,881,256 as shown.

DEVELOPMENT FUND REVENUE SOURCES

55. The following table shows the provisions for the Development fund over the past ten years. For eight of those years the Fund received only a portion of the revenue budgeted resulting in underfunding of \$121,566,078. This contributed to a negative Fund balance for several years.

	Budgeted Revenue	Actual Revenue	Difference

Re-Voted Balances

56. The amounts shown in the above schedules for Development Revenue do not include the brought forward (re-voted) balances, which are intended to reflect the unused funding provided in previous years for capital projects.

57. Loan Funds provided for capital projects that are not used in the current year, are carried forward in the subsequent year's budget until completion of the project. If at the end of a project there is an unused amount, this remains as a part of the Development Fund balance or is transferred to another capital project within the Fund. If however the project has been overspent, a supplementary provision is required to cover the over-expenditure. The amounts that are carried forward on capital projects are referred to as the re-voted balances.

DEVELOPMENT FUND EXPENDITURE

58. The expenditure budgets for most development projects may be funded via local sources, aid funds, lending agencies or a combination of these. The expenditure estimate provided in any given year for a development project does not represent the full costs for the

project, only the amount to be spent in that year. In 2012 the budgeted amount for spending on development projects was \$28,361,100. Amounts totaling \$107,293,912 for prior years completed or discontinued projects were written off at year end.

59. The actual expenditure from the Development Fund was \$41,052,091. This represented an increase in spending of 2.68% over the previous year's amount of \$39,978,221. The schedule below shows spending by ministry.

Diagram No. 8

Government Contracts

The Government does much of its development activity through contracts. These may take the form of a Major Contract valued in excess of \$100,000 or Petty Contracts usually between \$5,000 and \$100,000. Major contracts are required to be put to public tender in accordance with the provisions of the Public Finance Management Regulations. These regulations also make provision for tendering requirements to be waived by the Cabinet. Some large undertakings and projects may require several major contracts because of their size and complexity. An executed major contract is a public document which is lodged at the registry and accessible to members of the public, albeit for a small fee.

61. Petty contracts are issued for goods and services with an upper limit of \$100,000. These do not require public tender but departments must get competitive quotations before engaging a contractor or vendor. In 2012 more than 540 petty contracts and agreements were executed by the Government representing a commitment in excess of \$19,923,099. Approximately 29.28% of this (or \$5,832,769) was for petty contracts and agreements under the administration of the Public Works Department.

Splitting

62. The practice of splitting major contracts into smaller parts to facilitate issuing petty contracts was again pervasive in 2012. This was seen on several projects and across ministries. The rationale provided for contract splitting is to allow for work to be shared and promote development of skills among local contractors. The result is frequently works that is of inconsistent quality or engagement of individuals who are not sufficiently qualified or experienced to perform the contract.

63. The selection of contractors on a split contract is particularly susceptible to cronyism, nepotism and favoritism and has to a large extent become heavily politicized. This is all made easy by the fact that no formal competitive bidding is required and the works are now divided and costed in the budget by district. More needs to be done to regulate and monitor petty contracts if the Government is to achieve value for money on these agreements.

Petty Contract Usage

64. The issue of using public funds to develop private property was first reported in the 1997 Audit Report. The Government has a policy whereby retaining walls and roads are constructed on private property for the purpose of:

- i. compensating persons who give up land to accommodate expansion or improvement of public roads,
- ii. preventing erosion of soil onto public roads,
- iii. preventing the erosion of private property or widening of a public road.

65. During 2012 the Government continued to issue petty contracts for building private estate roads and retaining walls which did not qualify under the above criteria. This type of activity is commonplace and a substantial amount of the Public Works Department's time and resources is consumed in performing assessments, costing, preparing petty contracts and

monitoring works carried out on private property. There is now a widespread expectation by citizens that the Government will carry out work on their private roads, while the public roads are often left in disrepair.

Ministerial Portfolio Infringement

66. A practice has developed whereby ministerial budgets are adjusted to allow ministries to undertake work on projects falling outside of their defined portfolios.

67. The Premier's Office, which is charged with coordinating government activities, and implementing policies and programmes to promote the territory's sustainable development, executed contracts for retaining walls, school maintenance and maintaining a basketball court.

68. Similarly, the Ministry of Natural Resources and Labour engaged contractors for work on residents' homes in the Long Look area which properly fall under the purview of the Ministry of Communications and Works. It has also infringed on the Ministry of Health and Social Development's portfolio by undertaking civil works at Spooner's Estate.

69. The Ministry of Finance, which is responsible for developing the government's economic and fiscal strategy and implementing policies that support and promote good governance and public accountability, executed several petty contracts for works at the Multipurpose Sports Complex.

70. Amending the ministerial portfolios in the manner described gives the appearance of a ministry that has shifted focus from addressing the needs of the territory to catering to the needs of an electoral district, where the minister is also the district representative.

71. The Ministry of Finance involvement in the execution of projects erodes the accountability principles of separation of functions. The Ministry functions as both the executing agency for the project as well as the body that reviews, assesses and recommends funding request to the Cabinet. This practice compromises the accountability process and should be discontinued.

72. A schedule of contracts and agreements awarded by the different Ministries and Departments has been included at Appendix F of this Report.

Development Aid

OSAS Miscellaneous	2,537
Other Development Aid	(765,880)
	<u>(1,699,274)</u>

74. With the exception of the Canadian Aid and the OSAS Miscellaneous, all of the above accounts show negative balances indicating that the amounts spent were in excess of the funds received. These accounts are for the most part made up of projects that have long been completed or discontinued. The balances for development aid accounts were transferred to the Development Fund in 2003 and are no longer reflected on the face of the Balance Sheet.

75. These inactive brought forward balances were written out of the accounts in 2012.

Loan Fund

76. The Loan Fund accommodates moneys borrowed from banks and other lending agencies to finance projects undertaken by the Government.

77. In 2012 an amount of \$5,678,283 was received from a local commercial bank for the hospital project. During the year expenditure from the fund comprised \$11,306,554 for the New Hospital Project and \$2,461,313 for the National Sewerage Project. The balance on the Loan Fund at 31 December 2012 was negative \$2,782,587. The activity of the Loan Fund is disclosed in the Treasury Accounts' Statement of Other Fund and a list of loans is shown on the Statement of Public Debt.

CASH & INVESTMENTS

Cash at Banks/Operating Accounts

78. The Cash figure of \$91,351,914 disclosed on the Statement of Assets and Liabilities represents the end of year balances on operating and money market accounts held by local banks and the current portion of funds held by the Crown Agents and Office in London. The audit examination verifies the Treasury balances against confirmation statements submitted from the various banks used by the Accountant General. A prior year adjustment of \$2,476 was included in the cash balance.

Certificates of Deposit

79. Section 25 of the Public Finance Management Act, 2004 provides that:

- (1) The Financial Secretary may, with the approval of the Minister, invest money in the Consolidated Fund in an authorised investment.

- (2) An investment made under subsection (1) and interest received from such an investment are part of the Consolidated Fund.

80. In accordance with this provision, funds were invested in Certificates of Deposit and savings accounts at three local commercial banks and the National Bank of the Virgin Islands Limited. These investments increased from \$35,821,852 at the end of 2011 to \$51,964,368 at 31 December 2012.

Crown Agents Accounts

81. The subsidiary schedules of the Accountant General reflect a total of \$2,065,167 being held by the Crown Agents and the London Office in the United Kingdom on behalf of the Government of the Virgin Islands. The confirmation certificate received from the Crown Agents showed a current account balance of £238,189.62 and an amount of £900,000 held on fixed deposit for a total of £1,138,189.62. London Office confirmation certificate totalled £136,605.06. This amount equates to the balance in the Treasury records when converted to United States dollars at the official rate of U.S. \$1.62 to £1.00 sterling used by the Virgin Islands Government at 31 December 2012.

82. The current portion of the Crown Agents balance is included in the Cash balance and the amount held on the fixed deposit is reflected in the balance for Investments.

ADVANCES

83. Advances are made in accordance with Section 31A(1) of the Public Finance Management (Amendment) Act 2006 which provides that the Minister may authorise advances from the Consolidated Fund or other public moneys:

- (a) on behalf of, and recoverable from other Governments, administrations and statutory bodies;
- (b) to public officers for such purposes and on such terms and conditions as may be prescribed in the General Orders;
- (c) to meet expenditure in anticipation of receipt of an instalment of a grant or loan for specific purpose, whether to the Government or to a statutory body, from a source other than the Government, where the grant or loan has been approved by the source providing it;
- (d) in accordance with a specific agreement, to an agent appointed by the Government to perform a function on its behalf; or
- (e) for such purposes and on such terms and conditions as the Minister, with the approval of the Legislative Council, may determine.

Public Officers Advances

84. Advances to public officers usually take the form of loans issued to civil servants for medical purposes, special circumstances or to purchase a vehicle. These are repaid through automatic salary deductions executed at the Treasury Department. During the year 142 advances/loans were issued to public officers totalling \$3,120,412. Of this, \$128,592 was for

medical purposes, \$368,400 for vehicle loans and \$2,623,420 for special circumstances. At year end the balance on Public Officers Advances account was \$1,612,712.

85. The Ministry of Finance also approves short term advances in the form of imprests to facilitate public officers and elected representatives travelling abroad on official business. Three hundred and eight (308) travel imprests totalling \$542,944 were issued in 2012 indicating a slight decrease over the prior year's amount of \$557,230. Ninety seven (97) imprests totalling \$194,628 were not cleared at year end.

Other Advances

86. Other (miscellaneous) advances are issued in accordance with section 31A(1) subsections (a), (c), (d) and (e) of the Public Finance Management Act 2004 as amended. These advances are accompanied with instructions on how they are to be retired (usually through the next supplementary appropriation, against the subsequent year's budget or upon receipt of loan funds).

87. During the year 16 such warrants totalling \$2,150,253 were issued. The purposes varied from additional funding for development projects to providing resources to facilitate police investigations. A few of these remained uncleared at year end while the majority was cleared either by General Warrant or in Supplementary Appropriation 1 of 2012.

88. The balance on the Other Advance account decreased from \$3,833,185 at the beginning of the year to \$1,115,672 at year end. The more substantial account balances include Advance-Statutory Boards of \$500,000 to BVI Health Services Authority in the form of a loan and Scholarship Bond-Students of \$594,522.

Statutory Limitation on Advances

89. The Public Finance Management (Amendment) Act, 2006 provides that the total net advances outstanding should not exceed at any one time 1.5% of the total amount appropriated in respect of that financial year. In 2012 this limit computes to \$4,654,936 with the total authorized appropriations for recurrent expenditure and fund contributions being \$310,329,100.

Current Accounts

90. The balance shown against Current Accounts of \$538,806.26 represents monies due from other Governments and Administrations at the end of 2012. The items which comprise this balance are made up, almost exclusively, of pension allocations for retired civil servants with service in the Virgin Islands as well as other territories.

Postmaster Deposits

91. The amounts shown in the Statement of Assets and Liabilities against this item is \$292,121 due from and \$276,988 due to other territories, primarily on money order transactions. The Post Office functions and reporting are now largely computerised, notwithstanding, we were unable to verify the balances as the records which relate to these accounts are not being regularly reconciled by the Post Office.

Miscellaneous Deposits

92. Section 34(1) of the Public Management Finance Act, 2004 defines a “Deposit” as any moneys, not being raised or received for the purpose of the Government, which has been deposited with the Accountant General or with any other public officer authorised by the Accountant General. This Act further provides that “Deposits” shall not form a part of the Consolidated Fund and shall not be applied for a purpose of Government. Interest received on monies in the Deposit Account can, however, be paid into the Consolidated Fund and applied for Government purposes.

93. The Miscellaneous Deposit account accommodates deposits collected by the Customs Department to secure Import Duty; Immigration Department for immigrant workers bonds and Magistrate’s Court for child maintenance and others. These all constitute legitimate deposits as the monies are not collected for use by the Government but are usually returned to the payer or passed on to a third party.

94. At 31 December 2012, the Miscellaneous Deposit account carried a balance of \$33,982,569 reflecting an increase from last year’s balance of \$23,267,980. The increase represents uncleared cheques for previous years.

OTHER FUNDS

95. The Treasury Department maintains separate accounts for the nine additional funds discussed below. The Accountant General provides a statement of revenue for each Fund, also required is a statement of expenditure where there has been activity within the fund. Some of these are currently being produced and are included in the Treasury Statements as submitted.

Contingencies Fund

96. Section 5 of the Public Finance Management Act 2004, provides for a Contingencies Fund to be financed by money appropriated from the Consolidated Fund. The Contingencies Fund is intended to meet any urgent and unforeseen need for expenditure for which no other provision exists. This Act also provides that the contingencies shall comprise not more than one half percent of the total sum appropriated in an Appropriation Act for the relevant year.

97. Nine contingency warrants were issued in 2012 totalling \$732,699. These were issued to cover special expenditures and capital works throughout the territory. The warrant was cleared by Supplementary Appropriation 1 of 2012.

Emergency Disaster Fund

98. The Emergency Disaster Fund was introduced into the budget by way of the 1996 Appropriation Act. The Disaster Management Act 2004, which came into force on 15 May 2004, stipulates that the Fund is to be used towards recovery efforts and the adoption and promotion of preventive measures before, during and after a disaster. This Act also provides that, with prior approval of the Cabinet, the Fund may be applied towards assisting other countries or territories that have suffered disasters.

99. The Fund is financed primarily through appropriations authorised by the House of Assembly. It can also receive donations, grants, loans and monies raised through organised

activities. During 2012, the Disaster Fund received interest revenue of \$18,572. Payments totalling \$33,850 were made to two applicants. Hurricane relief was paid to a flood victim and to a fisherman. At year end the balance on the Fund was \$1,101,585.

Transportation Network Improvement Fund

100. The Transportation Network Improvement Fund was established under the Transportation Network (Land, Sea and Air) Improvement Fund Act 1992 and came into force on 1 October 1992. It is intended to be used for the purpose of “rebuilding and development of the major transportation network infrastructure of the Territory.” The fund’s revenue is made up almost exclusively of a fossil fuel surcharge collected by the Customs Department.

101. During the year the Fund recorded revenue of \$849,395. The fund balance was transferred to the Consolidated Fund at year end.

Reserve Fund

102. The initial framework for a Reserve Fund was introduced in the 2002 Annual Budget Estimates and subsequently legislated in sections 15 and 16 of the Public Finance Management Act 2004. The Fund is intended to assist the Government in achieving long term financial stability. It provides a separate and distinct account into which resources are appropriated to be used in the event that the Government should experience financial difficulties in the future.

103. The Public Finance Management Act 2004 makes provisions for the administration of the Fund but does not provide details (formulae or amount) for a minimum balance to be maintained, or the circumstances through which withdrawals would be permitted. The Act was amended in 2012 to provide for mandatory transfers into the Fund of at least 2% of the budgeted expenditure annually.

104. During 2012 the fund received \$15,000,000 from the Consolidated Fund and interest in the amount of \$54,157 accrued on a certificate of deposit, thereby increasing the balance at year end to \$21,065,822.

Pension Fund

105. The Pension Fund was established in 2002 to provide a separate account from which pensions for public servants would eventually be paid. The intention at that time was to have the pension provisions for the Public Service reviewed and, with the advice of actuarial experts, implement an updated (possibly contributory) pension system that would be managed through this Fund. To date, this proposed new system has not been developed and pension payments have continued to be made from the Consolidated Fund (\$12,974,960 in 2012).

106. The balance of the fund at year end was \$1,000,000 a result of the transfer from the Consolidated Fund.

Debt Service Fund

107. The Debt Service Fund was introduced to secure a separate provision to repay loans in the Public Debt. The Fund received an initial contribution of \$100,000 from the Consolidated Fund in 2002 and remained inactive until the year end when the balance was transferred back to the Consolidated Fund. Repayments of loans in the Public Debt continue to be made directly from the Consolidated Fund. During 2012 the interest and principal payments on the Public Debt totalled \$17,126,422.

Car Loan Revolving Fund

108. Currently, loan advances and repayment activity are reflected in the Advances account. Interest accrued on the advances issued to public servants for purchasing personal vehicles amounted to \$22,094. The balance of this fund of \$664,179 is held in the Consolidated Fund.

Loan Revolving Fund

109. This Fund was set up to replace the current system of providing loan assistance (Advances) to public service employees from the Consolidated Fund. An initial amount of \$100,000 was allocated in 2002 to establish the Fund and there has been no activity since that time. The balance on this account was transferred to the Consolidated Fund at year end. Loans to Public Servants are discussed under Advances in this Report.

Repairs and Renewal Fund

110. The Repairs and Renewal Fund was established under section 9(1) of the Public Finance Management Act and is intended to “meet expenditure for the repair or renewal of public stores or other Government property.” No activity was recorded in the Fund during the current year. The balance on this account was transferred to the Consolidated Fund at year end.

SUSPENSE AMOUNT

111. An unresolved amount of \$589,916 presented itself in the 2010 accounts in what appears to be an incomplete posting. After efforts to resolve this balance were unsuccessful the amount was placed in suspense accounts. This amount remained unresolved in 2011 and was written off in 2012.

PUBLIC DEBT

112. Records of the public debt are maintained by the Ministry of Finance and relevant information is supplied by that Ministry and from lending agencies for verification purposes. The Statement of Public Debt is submitted by the Accountant General for audit examination.

113. The outstanding loan balances are not included on the Statement of Assets and Liabilities. These are disclosed separately in a Statement of Public Debt. At 31 December 2012 the balance on the Public Debt was \$101,323,565. This amount includes disbursed and approved undisbursed debt.

114. Loan repayments are made from the Consolidated Fund under a recurrent expenditure budget provision controlled by the Financial Secretary. During 2012, principal and interest

payments of \$11,906,861 and \$5,219,561 respectively were met from a provision of \$17,141,600. The total payment increased by 21.4% over that of 2011.

115. Notwithstanding the increase in the balance over the past five years, economic ratios indicate that the current debt is well within acceptable levels.

116. The schedule and chart that follows illustrate the movement of the public debt balance for the years indicated.

Year	Public Debt	Increase (Decrease)
2003	45,250,634	(2,768,460)
2004	41,963,977	(3,286,657)
2005	48,185,707	6,221,730
2006	44,305,595	(3,880,112)
2007	75,508,772	31,203,177
2008	72,008,782	(3,499,990)
2009	134,251,314	62,242,532
2010	126,713,341	(7,537,973)
2011	116,807,696	(9,905,645)
2012	101,323,565	(15,484,131)

STATUTORY AUTHORITIES AND TRUSTS

117. The financial statements of the British Virgin Islands Electricity Corporation, H Lavity Stoutt Community College and the British Virgin Islands Social Security Board were audited by accounting firms on behalf of the Auditor General.

118. The accounts of the Development Bank of the Virgin Islands are examined by an auditor appointed for this purpose by the Governor in accordance with Section 37 of the Development Bank of the Virgin Islands Ordinance, Chapter 100. Auditors for the Port Authority are appointed by the Authority with the approval of the Minister in accordance with the British Virgin Islands Ports Authority Act 1990.

119. All of the larger statutory agencies are staffed with either a financial controller or a full time accountant. These are, for the most part, current in the compilation and audit of their annual accounts. The smaller agencies are often not staffed, but operated by committees functioning on a part time, as-needed basis. Most of these committees include a treasurer, yet there continue to be major difficulties in compilation and submission of timely statements of accounts.

120. There is no requirement for accounts to be submitted prior to the release of funding, therefore no real incentive for these agencies to adopt prudent financial practices and thus no accountability. Self-financing agencies such as the Prospect Reef Management Company which operate without a functioning board and are unable to present current audited financial statements are equally unaccountable and require oversight.

121. Of particular concern are the agencies that have never undergone any audit review, those that have received disclaimer opinions from their auditors and those that are three or more years delinquent with audits.

122. At the time of writing, the status of the audits for the various boards and trusts were as shown in the schedule that follows.

Statutory Authority or Board	Last Audited
BVI Electricity Corporation	2015
BVI Health Services Authority	2013

Scholarship Trust Fund Board	2011
V I Festival & Fairs Committee	2006
Wickhams Cay Development Authority	2006
Prospect Reef Management Company	2007

CONTINGENT LIABILITIES

123. Loans negotiated with various lending agencies on behalf of Statutory Boards, Trust and other Government sponsored bodies are usually guaranteed by the Government. In the event that these entities are unable to meet their repayment obligations, the Government would be required to do so on their behalf. A list of the loans which comprise the Government's contingent liability at 31 December 2012 is provided in Appendix E.

PUBLIC ACCOUNTS COMMITTEE

124. The Public Accounts Committee (PAC) is a Select Committee of the House of Assembly which is constituted under Standing Order No. 73 of the House of Assembly Rules. Its functions are:

- a. to consider the accounts of Government in conjunction with the Auditor's Report;
- b. to consider any Special Report submitted by the Auditor General under Section 20(3) of the Audit Act;
- c. to report to the Legislative Council in the case of any excess or unauthorised expenditure of funds, the reason for such expenditure;
- d. to report to the Legislative Council in the case of any shortfall of revenue, the reason for such shortfall;
- e. to report to the Legislative Council any case of apparent extravagance or waste of public funds;
- f. to propose any measure it considers necessary to ensure that public funds are properly brought to account and are economically spent.

125. The membership of the Public Accounts Committee changed after the general elections in 2011. The new body comprised three opposition members of the House of Assembly, and two members of the Government side. In accordance with the provisions of the Standing Order, the Leader of the Opposition is Chairman of the Committee and the Auditor General advises the Committee. The Committee may summon any accounting officer/head of department or other public officer to give explanations. The PAC is required to issue a report on its findings at least once each year.

ACKNOWLEDGEMENTS

126. I wish to express appreciation to members of my staff for their dedication and professionalism in performing their duties throughout the year and to the Accountant General and members of her staff for their valuable cooperation. I am also appreciative of those Accounting Officers and members of their staff who assisted through their cooperation.

Notes to Appendices

1. Some Contractors' names and the project descriptions have been shortened in the interest of space.
2. Numbers preceded with an "A" denote that the executed document took the form of an agreement. These have the same binding properties as a contract.
3. Skipped numbers result where contracts were cancelled before distribution or implementation.
4.
